

Safety Town is an early childhood safety education program designed for children who are at least 5 years of age and who are entering 5K kindergarten in the Fall. During a 15 hour program (3 hours per day for 5 days), children learn safety behavior under the guidance of certified teachers and qualified professionals such as firefighters and police personnel. Children learn safety lessons through role playing, games, art projects, stories, movies and field trips. Learning experiences are designed to be fun and non-threatening, so children look forward to every day of Safety Town. The program has been in existence in Lake Geneva for over 30 years.

The Lake Geneva Jaycees and [Geneva Lakes Women's Association](#) are proud to be a Sponsor of this great event!
